

MAMMOTH MACHINERY

TT1000 MINI TRACK DUMPER

The Mammoth Machinery TT1000 Hydraulic Dumper is our starter tracked mini dumper. With a hydraulic tipping bucket and a weight capacity of 1,100 pounds, this unit is capable of getting the job done. This machine has a 6F+2R mechanical transmission and 7" wide rubber tracks for greater stability in all conditions. This machine can turn its own length, allowing for better accessibility into smaller spaces.
