

HF-100 MINI

ADVANCED DATA SHEET

DETAILS

Model Name

HF-100 Mini

Model Title

Mini Cone Wood Splitter

Category

Cone Splitters

Brand

U.S. Pride Products

Description

This might be the smallest cone wood splitter in the U.S. Pride Products range, but the HF-100 Mini is powerful enough to split logs up to 3 ft in size! The HF-100 Mini is designed to be attached to mini skid steer loaders or 'stand-ons'. This wood splitter is perfect for the tree care industry as the unit is small enough to fit into tight spaces. For example, through garden gates, down narrow paths, or in backyards. Simply attach the cone splitter to your stand-on skid steer & start busting up chunk wood right there on the job site. Customers love the HF-100 mini for its superb splitting power and entry-level price!

PROCESSED MATERIALS

- Wood

DATA SHEET

HF-100 Mini
