

HF-800 2S

ADVANCED DATA SHEET

DETAILS

Model Name

HF-800 2S

Model Title

Two-Speed Cone Wood Splitter

Category

Cone Splitters

Brand

U.S. Pride Products

Description

Are you looking for a powerful and efficient cone splitter to take your firewood processing or land-clearing business to the next level? Look no further than the HF-800 2-Speed model! With its 2-speed motor, this splitter can handle even the toughest material with ease. Unlike the single-speed HF-800, the 2-speed unit can automatically shift between slow and high speed as needed, making it the perfect choice for larger skid loaders and excavators that don't have enough hydraulic flow to turn the standard HF-800 splitter. Ideal for high-volume firewood processors, large mulch producers, and high-volume land-clearing companies, the HF-800 2-Speed will split wood of any size and diameter in seconds! This cone splitter can come fitted with a standard skid steer quick-attach bracket or excavator pin grab bracket to suit any make and model. Custom attachments may incur an extra charge.

PROCESSED MATERIALS

- Wood

KEY SPECIFICATIONS

Carrier Weight	3.5-35 ton
Attachment Weight	1,750 lbs
Cone Size	32" x 16"
Max Split Size	Unlimited
Torque	15,000 ft-lbs

OTHER SPECIFICATIONS

Oil Flow Rate	30-60 GPM
Oil Working Pressure	3,400-5,000 PSI
Shaft Diameter	5.5"

FEATURES

- Easy to attach
- Low noise
- Split any size log!
- 16" wide X 32" long cone
- Perfect for large skid steers and large excavators

ADD-ONS

DESCRIPTION

Post Hole Auger

Swap out your cone splitter for the post hole auger attachment & easily dig holes in the ground. Perfect for those installing fences, placing signposts, or planting trees. A full range of post hole auger sizes are available depending on your needs.

Stump Planer

Stump planer for grinding tree stumps

Grapple

You can also retrofit your HF-800 one or 2-speed cone splitter with our new grapple package. It includes a new bracket, grapple and hydraulic valve to allow you to switch from cone splitter to grapple functionality from the operator seat. The hydraulic valve is operated by a 12-volt controller that plugs into the cigarette lighter port in the cab.

Trommel Screen

This trommel attachment is perfect for screening topsoil & mulch. Simply replace your cone with this attachment and get screening!

FAQ

Can the cone be sold separately?

Replacement cones are only available to customers who have bought their cone splitter through Machinery Partner.
