

SWTL4538

ADVANCED DATA SHEET

DETAILS

Model Name

SWTL4538

Model Title

Tracked Skid Steer Loader

Category

Skid Steers

Type

Tracked

Brand

Sunward America

Description

Need for a compact and versatile loader with good lift capacity, and plenty of power whatever the terrain? Thanks to the suspended undercarriage system and the tracks, the Sunward SWTL4538 compact track loader offers excellent performance with outstanding drawbar power for operation on rough terrains like mulch, rock, or dirt. It is also highly versatile and compact enough to be easily maneuverable in small spaces. Despite its compact size, you will be impressed by the great breakout force and huge lift capacity. The powerful Kubota engine offers performance, exceptional reliability, and long service life. Maintenance and service are also easily accessible. Daily maintenance is very easy since service checkpoints and cooling system components are accessible at ground level from the rear door. When it comes to service, major components are also easily and quickly accessible by tilting the cab. When it comes to comfort, the SWTL4538 offers a spacious cab with a wide entrance, a comfortable seat, ergonomic controls, and excellent all-around visibility. Last but not least, safety is not at rest thanks to the cab coupled with the excellent visibility and great stability of the machine.
