

704X

ADVANCED DATA SHEET

DETAILS	
Model Name	704X
Model Title	27" × 16" Compact Tracked Jaw Crusher
Category	Crushers
Type	Jaw
Brand	ARK
Description	The 704X Jaw Crusher is designed for operators that need a versatile and mobile machine. Fully radio-controlled (including for on-track movement), quick set-up time, quick and easy to handle, completely independent, and also suitable for use by a single operator. The vibrating table feeding system, coupled with the crusher infeed sensor, guarantees long life and minimal maintenance. While the belt is longer than category standards, the fact that it is foldable greatly reduces transport and downtime space. The latest design allows the 704X to provide greater operating performance for the benefit of productivity and emissions, and the renewed fiberglass bodywork style lends the machine greater lightness and a more modern, captivating line.

PROCESSED MATERIALS	
	• Concrete • Brick • Demolition Waste

KEY SPECIFICATIONS	
Size Out (Close Side Setting)	1/2" - 4"
Size In (Gape)	12" - 18"
Max ton per hour	90 tph
Engine Power	74 hp
Operating Weight	26,450 lbs

OTHER SPECIFICATIONS	
Jaw Size	27" × 16"
Mobility	Full Mobile
Transport Size (L x W x H)	17'4" × 7'9" × 9'
Working Size (L x W x H)	28'3" × 7'9" × 9'
Engine Type	Doosan Tier 4 Final

FEATURES

- Reverse jaw function for sticky applications / clearing blockages
- Camera Vision via Phone
- Adjustable material feed speed in the crushing chamber
- Hydraulically foldable main discharge belt
- Control of all plant functions with the remote control
- Fines conveyor
- Longer tines
- Over-feeding sensor
- Led light for displacement
- Rubber Tracks
- Hydraulically adjustable jaw setting
- Access platform
- Quick set-up time
