

SWL2830

ADVANCED DATA SHEET

DETAILS

Model Name	SWL2830
Model Title	Wheeled Skid Steer Loader
Category	Skid Steers
Type	Tracked
Brand	Sunward

Description

Need for a compact and versatile skid steer with good lift capacity and plenty of power? The Sunward SWL2830 skid steer is highly versatile and compact enough to be easily maneuverable in small spaces. Despite its compact size, you will be impressed by the great breakout force and huge lift capacity. The powerful Kubota engine offers performance, exceptional reliability, and long service life. Maintenance and service are also easily accessible. Daily maintenance is very easy since service checkpoints and cooling system components are accessible at ground level from the rear door. When it comes to service, major components are also easily and quickly accessible by tilting the cab. When it comes to comfort, the SWL2830 offers a spacious cab with a wide entrance, a comfortable seat, ergonomic controls, and excellent all-around visibility. Safety is a priority with the excellent visibility and great stability of the machine.
