

R1000S

ADVANCED DATA SHEET

**DETAILS**

Model Name R1000S

Model Title 38" x 29" Mobile Track Mounted Impact Crusher

Category Crushers

Type Impact

Brand Rockster

Description The R1000S mobile impact crusher is specially developed for applications where space is limited such as inner-city projects. The R1000S can be easily transported from one job site to the next and is the perfect combination of compactness and maximum performance. Rockster's mobile track-mounted impact crusher is perfect for recycling asphalt, concrete, and demolition debris. The R1000S is also suitable for the precise processing of natural stone.

PROCESSED MATERIALS

- Gravel
- Concrete
- Virgin Stone
- Brick
- Asphalt
- Demolition Waste

KEY SPECIFICATIONS

Size In Up to 23"

Max ton per hour 280 tph

Feed Height 10'6"

Stockpile Height 10'6"

Operating Weight 68,350 lbs

OTHER SPECIFICATIONS

Transport Size (L x W x H) 33'2" x 8'5" x 10'6"

Engine Power 335 hp

Mobility Full Mobile

Engine Type CAT Stage V

Working Size (L x W x H) 41'8" x 16'1" x 10'6"

FEATURES

- Feed Hopper
- Vibrating Feeder with 2-Deck Pre-Screening
- Adjustable bypass chute
- Vibrating Hardox Discharge Chute
- Sound insulated engine compartment
- Vertically & hydraulically adjustable magnetic separator
- Crusher overload protection
- Dust Suppression
- Swiveling Catwalk for Optimal Service & Maintenance
- Electronic remote control & main controller with color display
- Foldable feet for easier screenbox maintenance & screen change
- Easily Lifted Engine Compartment Doors for Easier Service & Maintenance
- Hydrostatic Drive
