DETAILS

Model Name

HF-400 2S

Model Title

Two-Speed Mini Excavator Cone Wood Splitter

Category

Cone Splitters

Type

Cone

Brand

U.S. Pride Products

Description

Are you in need of an excavator wood splitter specifically designed for mini to mid-size excavators? Look no further than the HF-400 from U.S. Pride Products! This durable two-speed cone splitter effortlessly handles 12 ft logs all day long, making it ideal for high-volume firewood processors, mulch producers, and small land-clearing contractors. Setting up is a breeze with quick-connect hydraulic attachments and a pin-on excavator bracket*. The HF-400's versatility makes it perfect for those seeking to expand their equipment options and increase their operational efficiency. Additionally, this mini excavator wood splitter can be used with attachments such as a post-hole auger, trommel screen, and stump planer for even more functionality. With these additional attachments, the HF-400 becomes an indispensable tool for a wide range of applications. Choose the HF-400 for reliable and efficient performance in various job conditions. *Comes with a standard pin grabber bracket—additional brackets available for all makes and models of excavators. Custom attachments may incur an extra manufacturing charge, ensuring every need is met with precision.

PROCESSED MATERIALS

- Wood

DATA SHEET

HF-400 2S

RECOMMENDED USE

Best For Splitting logs up to 12 ft in length

Good For Splitting hard wood and stumps

Not Built For Splitting extra large logs

Best Loader Excavator

KEY SPECIFICATIONS

Cone Size 30" x 16"

Attachment Weight 750 lbs

Carrier Weight 3-10 ton

Max Split Size 12'

Torque 9,500 ft-lbs

OTHER SPECIFICATIONS

Shaft Diameter	3.56"
Oil Flow Rate	15-50 GPM
Oil Working Pressure	2,400 – 3,400 PSI

FEATURES

- Saving you time with high-volume firewood processing
- Quick-connect hydraulic attachments and a pin-on excavator bracket ensure easy setup, reducing downtime and increasing productivity
- Perfect for mid-size excavators
- Versatile usage with attachments like post-hole augers and stump planers expands functionality, saving you money by reducing the need for additional equipment
- Durable construction ensures reliable performance in various job conditions, minimizing maintenance costs and enhancing operational efficiency
- 16" wide X 30" long cone
- Split logs up to 12'
- Low noise
- Now with improved two-speed functionality!

ADD-ONS	DESCRIPTION
Post Hole Auger	Swap out your cone splitter for the post hole auger attachment & easily dig holes in the ground. Perfect for those installing fences, placing signposts, or planting trees. A full range of post hole auger sizes are available depending on your needs.
Trommel Screen	This trommel attachment is perfect for screening topsoil & mulch. Simply replace your cone with this attachment and get screening!
Stump planer	Stump planer attachment for grinding tree stumps

FAQ	
Can the cone be sold separately?	Replacement cones are only available to customers who have bought their cone splitter through Machinery Partner.
