

# SCG-ROCK BUCKET

## ADVANCED DATA SHEET

**DETAILS**

<b>Model Name</b>	SCG-Rock Bucket
<b>Model Title</b>	3.5-20 Ton Rock Bucket
<b>Category</b>	Buckets
<b>Type</b>	Rock
<b>Brand</b>	Smart Charm Global

**Description** SmartCharm's rock bucket are specifically designed for John Deere excavators. These buckets are constructed from Hardox or NM400 steel increasing longevity and resistance to damage. Many reinforcements have been made such as the base blade, side blade, and main blade plate to resist bending. Equipped with rock teeth makes this excellent for digging in hard soil and rock, especially tough marble.

**PROCESSED MATERIALS**

- Construction debris
- Demolition debris
- Marble
- Rock and rubble
- Soil

**RECOMMENDED USE**

<b>Best For</b>	Penetrating and breaking solid surfaces, such as stone, asphalt and large sheets of rock
<b>Good For</b>	Loading gravel and rubble
<b>Not Built For</b>	Small quantities of aggregate

**KEY SPECIFICATIONS**

<b>Carrier Weight</b>	3.5-20 Ton
<b>Bucket Width</b>	12"-42"
<b>Bucket Capacity</b>	0.08-1.34 cubic yards
<b>Operating Weight</b>	163-2,247 lbs

---

## FEATURES

- Base plate reinforcement to withstand bending and abrasion
- Side blade reinforcement to withstand bending and abrasion
- Main blade plate reinforcement to withstand bending and abrasion
- Made from NM400 steel or Hardox ensuring better wear resistance
