

TR8048

ADVANCED DATA SHEET

DETAILS

Model Name TR8048

Model Title 80' Tracked Stacker Conveyor

Category Conveyors

Type Tracked

Brand Barford

Description The TR8048 is an 80' conveyor, and a great option for gravel pits, processing sand, stone, or organics. It is better suited to production yards, rather than a contractor out moving from site to site. Ideal applications includes static pits, recycling yards, and small companies with maybe only one operator trying to save time loading material.

PROCESSED MATERIALS

- Concrete
- Demolition Waste
- Rock
- Sand
- Topsoil

RECOMMENDED USE

Best For	Efficient stockpiling in medium to large-scale projects, including rock, sand, and topsoil.
Good For	Projects requiring a mobile conveyor that can handle up to 500 tons per hour.
Not Built For	Small, confined sites where a smaller, more maneuverable conveyor would be better.
Best Loader	Crusher, screener, large excavator, large loader

KEY SPECIFICATIONS

Weight	30,820 lbs
Ton per hour	500 tph

OTHER SPECIFICATIONS

Transport Size (L x W x H)	39'6" x 7'9" x 8'6"
Engine Power	60 hp
Feed Height	9'3"
Stockpile Height	37'8"
Working Size (L x W x H)	71'7" x 7'9" x 33'

FEATURES

- Hydraulic slew hubs
- Hydraulic raise/lower
- Hydraulic head fold
- Galvanized legs & guards
- Remote control movement
- Tracked conveyor 80' x 48"
- Central greasing
