

RC150V

ADVANCED DATA SHEET

DETAILS**Model Name** RC150V**Model Title** 26" x 14" Compact Trailer-Mounted Jaw Crusher**Category** Crushers**Type** Jaw**Brand** RubbleCrusher

Description The trailer-mounted RubbleCrusher RC150T is a versatile tracked jaw crusher, perfect for small to medium-sized crushing operations. Easily towed from one jobsite to another, this plant enables on-site recycling of construction and demolition materials, with a capacity to crush up to 50 tph. It's a top choice for contractors, landscapers, pavers, and hardscapers. This powerful, yet compact crusher offers the flexibility to operate fully electric, reducing fuel consumption, and meeting noise restrictions in urban zones when needed.

PROCESSED MATERIALS

- Asphalt
- Brick
- Concrete
- Demolition Waste

RECOMMENDED USE

Best For Crushing small pieces of concrete, tile waste. Small to medium-sized projects; on-site recycling of construction and demolition materials

Good For Concrete, brick, cinder block and concrete pavers. Asphalt in cold conditions. Contractors needing compact, mobile solutions

Not Built For Large production of aggregates, Rock

Best Loader Mini excavator, by hand

KEY SPECIFICATIONS

Ton per hour 5 - 50 TPH

Operating Weight 7700 lbs

Size Out 5/8" - 4"

OTHER SPECIFICATIONS

Size In	11" - 18"
Tank Capacity	10.5 gallon
Engine Power	38 hp / 28kW
Jaw Size	26" X 14"
Max Rock Size In	11" - 18"
Stockpile Height	4'3"
Power Source	Diesel
Mobility	Wheeled
Engine Type	Yanmar tier 4
Working Size (L x W x H)	14'8" X 7'1" X 7'3"

FEATURES

- Reversible jaw - good for asphalt
- Hydraulic jack support legs
- Quick set-up time
- Can be run fully electric
- Compact and mobile with large jaw box
- US Stage 4 compliant Yanmar diesel engine
