

Merris WX-10

Air Curtain Incinerator **Advanced Data Sheet**

Details

Manufacturer	Merris
Model	WX-10
Category	Air Curtain Incinerators

Overview

The Merris WX-10 Wood Waste Incinerator is an advanced and highly efficient solution for large-scale wood waste disposal, designed to emphasize sustainability and superior performance. Building on the success of the WX-8 model, the WX-10 features a large 26' Firebox in length. In addition to its outstanding waste processing capabilities, the WX-10 produces biochar as a valuable byproduct. This eco-friendly feature not only contributes to reducing environmental impact but also offers a sustainable resource that can be repurposed in agriculture or carbon sequestration efforts.

Processed Materials

Green Waste, Pallets, Palm Trees, Tree Roots, Wood

Recommended Use

Best For	Forestry and land management projects where large volumes of wood waste need efficient and environmentally friendly disposal. Similar to the X8, ideal for large-scale wood waste disposal and biochar production, with enhanced capacity and features for larger projects
Good For	Construction and demolition sites with significant wood waste generation seeking a convenient on-site disposal solution. More intensive applications like land clearing operations

Not Built For	Incinerating non-wood materials or hazardous waste, as air curtain burners are specifically designed for clean burning of wood and organic waste. Applications that don't require high-capacity wood waste disposal
Best Loader	Large excavator with grapple/thumb

Specifications

Transport Size (L x W x H)	36'6" X 10'8" X 9'6"
Weight	42,549.251 lb
Tank Capacity	33 gallon
Fuel Consumption	2 gal/h
Engine Power	70 hp
Ton per hour	9 - 11 tph
Feed Height	8'6"
Firebox Dimension	26'4" X 8'7" X 8'6"
Engine Type	Yanmar or Kohler
Working Size (L x W x H)	33'4" X 10'4" X 9'6"

Features

- ✓ Suitable for forestry and land management
- ✓ Suitable for both fresh and dry wood
- ✓ High-tech refractory walled FireBoxes
- ✓ Cost-effective and environmentally friendly solution
- ✓ Efficient disposal of large wood waste volumes
- ✓ Clean burning with minimal emissions
- ✓ Ideal for construction and demolition sites
- ✓ Air curtain technology for containment

- ✓ Production of valuable biochar
- ✓ Versatile use in remote or inaccessible locations
- ✓ Air curtain technology for containment
- ✓ Biochar production after screening
- ✓ 10 panel burn chamber

Add-Ons

Rollon-rolloff chassis

Clutch options

Mechanical clutch with/ HydraUlic Clutch WTP

Frequently Asked Questions

What is the Merris WX-10 air curtain burner?

The Merris WX-10 air curtain burner, also known as an air curtain incinerator, is a machine that cleanly burns wood and vegetative waste by blowing a curtain of air over the fire to reduce smoke and emissions.

Where's the Merris WX-10 air curtain burners commonly used?

The Merris WX-10 is ideal for municipalities, landfills, parks, forestry operations, and land clearing projects.

Is the Merris WX-10 air curtain burners carbon neutral?

Yes, with the Merris WX-10, burning clean vegetative waste, the process is considered carbon neutral under EPA guidelines.

What permits are needed to operate the Merris WX-10?

There are two types required to operate the Merris WX-10; Temporary Use: Local permits for short-term projects like land clearing or fire prevention. Stationary Use: May require a Title V permit from your state's air quality office for long-term use.

What kinds of waste can the Merris WX-10 burn?

The Merris WX-10 is designed for clean vegetative waste, such as branches, logs, and brush, not mixed or hazardous materials.

How does the Merris WX-10 help fight climate change?

The Merris WX-10, drastically reduces black carbon emissions—one of the top contributors to climate change—air curtain burners offer a fast and effective climate solution.

Why use the Merris WX-10 air curtain burner instead of open burning or grinding?

The Merris WX-10 air curtain burner is environmentally friendly and emits far less black carbon and CO₂ compared to open burning or grinding, which are highly polluting.

Why buy from Machinery Partner?

Trusted Expert Guidance

Backed by years of industry experience and trusted by leading contractors, our specialists guide you to the right equipment globally. Avoid costly mistakes and source with confidence.
