| Model Name | SH-60 |
| Model Title | 60" Shaft Tracked Mobile Shredder |
| Category | Shredders |
| Type | Dual Shaft |
| Brand | ARK |
| Description | <p>Save money on transportation and landfill costs with the powerful and compact ARK SH-60 dual-shaft shredder. This tracked slow-speed shredder is perfect for waste management and recycling, helping you turn dumpsters of trash into dust! It can effortlessly tear through a wide range of materials, including palm trees, compost, tires, concrete, asphalt, and demolition waste. Its impressive 60" shredding shafts can handle material up to 50" long and efficiently shred it down to sizes as small as 3-¼" - 5-¾"</p> <p>When it comes to organic waste like wood, palm trees, and tree stumps, the ARK SH-60 shredder is your go-to solution for creating mulch. Additionally, this machine is equipped to handle concrete with rebar, and its powerful overband magnet easily separates any metal, ensuring a clean and high-quality end product.</p> |

| PROCESSED MATERIALS | |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <ul style="list-style-type: none">• Brick• Wood• Demolition Waste• Rock• Compost• Palm Trees• Waste• Concrete• Cement• Asphalt |

| RECOMMENDED USE | |
|-----------------|---------------------------------------------------------------|
| Best For | Size reduction of mixed demo waste [wood, plastic, rebar etc] |
| Good For | Concrete recycling, sizing material, wood waste shredding |
| Not Built For | Aggregates, hard materials, scrap metal shredding |
| Best Loader | Large excavator with a grapple |

| KEY SPECIFICATIONS | |
